

Apple Imagewriter User's Manual

Part I: Reference

ERRATA

Please note that the Apple Imagewriter User's Manual, Part I: Reference, refers to a "Part II User's Manual" for system specific hookup and run procedures. Your Macintosh system does not use Part II manuals, but instead provides all of the pertinent information in the Macintosh Manual, which came with your system. Where Part II manuals are referenced, within the Imagewriter Part I manual, please substitute a reference to the Apple Imagewriter section of the Macintosh Manual.
